

Trader Joe's

Client: Trader Joe's

Project Location: Various States

Services Provided: Architecture, Interior Design

Completion Date: Continuous

Construction Cost: Continuous

Cripe Architects + Engineers provides Architecture/Interior Design services for these projects and also conducts existing conditions analysis for stores throughout the Midwest.

Site specific design was developed utilizing Trader Joe's prototype drawings of its 13,000 square foot facilities.

Cripe's professionals worked with existing developers, building owners and land owners to complete an interior remodel as well as an exterior facade renovation at each location.
